The Creek Destiny 2 is, admittedly, a fairly expensive integrated amplifier. But at this price, it is one of the few dual mono units that also has a subwoofer RCA output and a class A / passive, I believe, preamp section. This thing just sounds fabulous - excellent low level detail, slam, ambience, soundstaging. This badboy just sounds so "real". It also has a super clean interface and remote ...

Creek Audio Destiny integrated amplifier Page 2. The Sound I can't comment on the timbral characteristics of the Creek Destiny because, across the entire frequency spectrum, I heard not a single deviation from neutrality—this is the least colored component I've ever reviewed. Here are its strengths: — pristine, extended, and detailed high frequencies with no trace of hardness, and a purity ...
